

Art. 62018

## Petrol System Cleaner Plus

**Reaction time**  
works during operation

**Application field**  
all petrol engines

**Consumption**  
300 ml for 60 l petrol // resp. 0,5% of the filling content

**Application interval**  
every 6 months or every 10,000 km

**Application** Add every 6 months or every 10,000 km to the fuel tank before filling up. Product works during operation, sufficient for up to 60 L petrol. For larger tank volumes add 0,5% of the filling content.  
Attention: Cleaning fluid – no fuel replacement!

**Description** GAT Petrol System Cleaner Plus is suitable for use in all petrol engines, generators and high performance engines (e.g. boat, bike etc.). Removes operationally caused contamination in the entire fuel system from the tank to the combustion chamber. Dissolves resins and gums in the carburetor and injection system. Removes coking and unburned carbon residues in the upper cylinder area. Binds moisture and condensed water in the complete fuel system. Lubricates and protects the upper cylinder area.

**Benefits** Clean and powerful combustion process and highly efficient engine running. Reduced fuel consumption. Improved engine performance and reduced exhaust gas emissions. Protects against corrosion and considerably prolongs the life span of the fuel system and catalytic converter.

**PU** 24 x 300 ml

**Packing sizes** 300 ml // other sizes available on request
