

Art. 62039

LPG Valve Protect

**Reaction time**

works during operation

**Application field**

all LPG dosage systems

**Consumption**

depends on LPG System

**Application interval**

on demand

Application For application in vehicles with bivalent engines and automatic dosage system. 50 ml sufficient for 50 L of fuel, the product will be automatically diluted. Product works during operation.

Description LPG Valve Protect is a highly efficient fuel additive that considerably reduces wear and tear of valves and valve seats of liquefied petroleum gas (LPG) powered engines. Reliably and lastingly removes even smallest particles of contamination in the entire combustion system.

Benefits Long-term protection of valves and valve seats due to permanent lubrication of the valves. Optimized fuel consumption and reduced exhaust gas emission. Protects against valve impact and extends the life span of the engine.

PU 12 x 1000 ml

Packing sizes 1000 ml // other sizes available on request
