

Art. 62038

## LPG Petrol System Cleaner

**Reaction time**  
works during operation

**Application field**  
all petrol engines

**Consumption**  
300 ml for 1 application

**Application interval**  
every 3 months

**Application** Add 1 can (300 ml) every 3 months to the fuel tank before filling up. Recommended for all vehicles with bivalent engines. Treats 60 L of petrol. For larger tank volumes add 0.5% of the filling content. Product works during operation.  
Attention: Cleaning fluid – not a fuel substitute!

**Description** GAT Petrol System Cleaner LPG is a high-performance product for liquefied petroleum gas (LPG) powered engines. Reliably removes all operationally caused contamination in the entire combustion system. Highly effective lubricating components protect valves against wear, tear and corrosion.

**Benefits** Only a clean fuel system guarantees clean and powerful combustion and efficient engine performance! Optimizes the fuel consumption and exhaust gas emission values. Improves the operational liability and increases the life span of the engine. Protects against valve impact.

**PU** 24 x 300 ml

**Packing sizes** 300 ml // other sizes available on request

Although our information is based on intense product tests and studying and therefore considered as reliable, it nevertheless has solely advisory character.
